Elaine:

Thanks for the estimate. Based on 1132mi² @ 2.4m, I come up w/ \$2120/mi² + 10% contingency = \$2332/mi².

Thanks, Brad

Subject: ROUGH ORDER OF MAGNITUDE

Brad,

I have guesstimated the costs to fund the 1132 square mile CERCLA mine sites at \$2.4M which is based on the following assumptions:

- Part of the CERCLA site would be flown low level at 150 ft line above ground level altitude at 300 feet line spacing; portions of the CERCLA site would be flown at 300 feet above ground level at 600 feet line spacing.

If you have any further questions, please contact me. Good luck at your meeting.

Elaine
